5 MARKETING FUNCTIONS

3 SYSTEMS BUILT

n8n • Dify • Retell

### PROJECTS

#### AI Powered Website Chatbot for Lead Qualification & Customer Support

Improved lead qualification and support responsiveness by building a conversational AI chatbot on Dify — using structured prompts and guided conversation paths to handle first-level website queries and capture leads.

**Skills:** Lead Qualification, Customer Engagement, Conversational AI, Prompt Engineering

#### AI Voice Agent for Automated Customer Interaction

Reduced manual response effort and validated a scalable voice-AI model by building an inbound voice agent on Retell to automate repetitive customer interactions and conversation flows.

**Skills:** Customer Engagement, Conversational AI, Voice AI, Scalability

#### Automated Spam Filtering for Website Leads

Improved lead quality and streamlined CRM intake by building an n8n workflow combining rule-based and AI logic to filter spam from website leads before CRM entry.

**Skills:** Lead Qualification, Workflow Automation, CRM Hygiene, AI-Assisted Filtering

**Tech Stack:** GPT | Claude | Dify | n8n | Retell AI | APIs | Webhooks
